15 Fun Facts About Walruses

1. Walruses are the only living species in the genus *Odobenus*.
2. They are massive marine mammals, with males weighing up to 4,000 pounds and females up to 2,000 pounds.
3. Walruses have long, thick tusks that can grow up to 3 feet long.
4. Their tusks are used for hauling themselves out of the water, fighting with other walruses, and defending themselves from predators.
5. Walruses have sensitive whiskers that help them navigate through the icy waters and locate food.
6. They have a thick layer of blubber that helps them stay warm in the cold Arctic waters.

7. Walruses are excellent divers and can dive to depths of over 1,000 feet.
8. They are social animals and live in large herds.
9. Walruses are playful animals and enjoy playing in the water.
10. They are also very vocal animals and communicate with each other through a variety of sounds.
11. Walruses are important members of the Arctic ecosystem.
12. They are a major food source for polar bears and other Arctic predators.
13. Walruses are also a valuable resource for humans, providing meat, ivory, and oil.
14. Walruses are currently listed as a vulnerable species by the International Union for Conservation of Nature (IUCN).
15. Climate change is one of the biggest threats to walruses, as it is causing the sea ice they depend on to melt.

What People Are Saying

"This book is a great way to introduce kids to the fascinating world of walruses. The facts are engaging and the illustrations are beautiful. My kids loved it!"

- Our Book Library Customer

"My son is a huge fan of walruses and he was thrilled to receive this book. He has read it over and over again and has learned so much about these amazing animals."

- Goodreads Reviewer
