Whether you are a new aircrew member or a seasoned veteran, Hems Helicopter Essentials Aircrew Survival Manual is the essential guide to helicopter survival.

Essential Survival Skills for Aircrews

In the event of a helicopter accident, aircrews face a unique set of challenges. They may be stranded in a remote area, with limited resources and no way to contact help. That's why it is essential for aircrews to have the knowledge and skills to survive on their own.

Hems Helicopter Essentials Aircrew Survival Manual teaches aircrews the essential survival skills they need, including:

- How to build a fire
- How to find water
- How to shelter from the elements
- How to signal for help
- How to navigate in the wilderness

- How to treat injuries and illnesses

These skills are essential for any aircrew member who wants to be prepared for the unexpected. By learning these skills, you can increase your chances of surviving a helicopter accident and returning home safely.

Comprehensive Guide to Helicopter Survival

Hems Helicopter Essentials Aircrew Survival Manual is the most comprehensive guide to helicopter survival available. It covers everything aircrews need to know to survive in the event of an emergency, from safety and prevention to search and rescue operations.

This manual is written by experts in the field, and it is packed with real-world examples and case studies. It is the essential guide for any aircrew member who wants to be prepared for the unexpected.
