From Mercantilism to Neoliberalism: The Shifting Tides of Finance

The book navigates the ebb and flow of finance through various political eras, from the mercantilist policies of the early modern period to the neoliberal ideologies of the late 20th century. Each chapter dissects the symbiotic relationship between state power and financial markets, revealing the complex interplay of interests and influences.

Delving into Key Political Regimes

Dr. Gerstle provides in-depth examinations of specific political regimes, highlighting their distinctive approaches to finance. He explores the role of the state in regulating financial markets, the influence of political parties and ideologies, and the interplay between public and private financial institutions.

Case Studies and Comparative Perspectives

The book is enriched with illuminating case studies drawn from the United States, Britain, and Germany. These comparative analyses offer valuable insights into the varied ways in which political and economic conditions have influenced the development of financial systems.

Consequences of Financial Dominance

"The Political Origins of the Rise of Finance" goes beyond historical analysis to explore the profound consequences of financial dominance in contemporary society. Dr. Gerstle examines the impact of financialization on income inequality, economic stability, and democratic governance.

A Call for Rethinking Finance

The book concludes with a thought-provoking call for a fundamental rethinking of finance's role in society. Dr. Gerstle argues that the current financial system, characterized by its excessive size, complexity, and volatility, is unsustainable and incompatible with democratic values.

"The Political Origins of the Rise of Finance" is an essential read for anyone seeking to understand the complex relationship between politics and finance. Its rigorous scholarship, insightful analysis, and timely insights make it an invaluable resource for scholars, policymakers, and all those concerned about the future of our financial system.
